Summary

Aspiring DevOps Engineer with hands-on experience automating cloud-native infrastructure on AWS. Strong expertise in CI/CD pipeline automation, Infrastructure as Code (Terraform), containerization (Docker), and monitoring systems. Strong problem-solver who enjoys breaking things, fixing them, and then automating the fix.

EXPERIENCE

Cognisys AI - Software Engineer Intern
May 2025 - Aug 2025

- Developed a web application for mock technical interviews supporting both text and audio inputs.
- Integrated AI-based evaluation and analysis using Python, Flask, and AWS.
- Used AWS services including EC2, S3, Lambda, CloudFormation, CloudWatch, IAM, and Secrets Manager.

PROJECT

CI/CD Pipeline with GitOps Deployment on AWS

- Designed and implemented an end-to-end pipeline using Jenkins Shared Libraries for reusable CI stages
- Integrated SonarQube for static code analysis and enforced Quality Gates before deployment
- Automated Docker image build and push to DockerHub
- Deployed applications to AWS EKS using GitOps workflow with ArgoCD
- Configured email notifications for pipeline success/failure alerts
- Implemented timeout handling and webhook integration for SonarQube Quality Gate validation

SKILLS

Cloud Platforms	AWS (EC2, S3, RDS, IAM, VPC, Route53, Auto Scaling, Elastic Load Balancer, CloudWatch, CloudFront, Lambda, EKS, SNS, SQS, CloudFormation)
Infrastructure as Code	Terraform (Modules, Remote State, Workspaces, Environment-based Provisioning)
CI/CD Tools	Jenkins, GitHub Actions, ArgoCD
Containerization & Orchestration	Docker (Dockerfile, Docker Compose, Multi-stage Builds), Kubernetes, Amazon EKS
Configuration Management	Ansible (Playbooks, Roles, Inventories, Dynamic Inventory)
Scripting & Automation	Python, Bash, YAML
Version Control	Git, GitHub, Bitbucket
Monitoring & Observability	Prometheus, Grafana, AWS CloudWatch, CloudWatch Logs, Alerting
Operating Systems	Linux Administration (Ubuntu, Amazon Linux, RHEL), Windows Server, MacOS
Linux Administration	User Management, Permissions, Cron Jobs, Systemd Services, Package Management, Log Analysis
Networking	VPC, Subnets, Route Tables, Security Groups, NACLs, NAT Gateway, Internet Gateway, Load Balancing, Auto Scaling, DNS, VPN

CERTIFICATIONS

- **IBM DevOps and Software Engineering** professional certificate from Coursera.
- **DevOps Engineer** from NCVET – Skill India.
- **Python for Data Science and AI Development** from Coursera and Udemy

EDUCATION

- **Master of Computer Applications (MCA)** 2023-2025
  Osmania University, Hyderabad

- **B.Com (Computer Applications)** 2019-2022
  Osmania University, Hyderabad
- **Board of Intermediate (MPC)** 2017-2019
  Loyola Academy Junior College, Hyderabad
- **Board of SSC** 2017
  CMR High School, Hyderabad
