SUMMARY

Aspiring DevOps Engineer with hands-on experience automating cloud-native infrastructure on AWS. Strong expertise in CI/CD automation, Infrastructure as Code, containerization, and monitoring systems. A problem-solver who enjoys breaking things, fixing them, then automating the fix.

EDUCATION

- **Master of Computer Applications (MCA) – 2023-2025**
  Osmania University, Hyderabad
- **B.Com (Computer Applications) – 2019-2022**
  Osmania University, Hyderabad
- **Board of Intermediate (MPC) – 2017-2019**
  Loyola Academy Junior College, Hyderabad
- **Board of SSC – 2017**
  CMR High School, Hyderabad

EXPERIENCE

Cognisys AI - Software Engineer Intern
May 2025 - Aug 2025

- Developed a web application for mock technical interviews supporting both text and audio inputs.
- Integrated AI-based evaluation and analysis of resumes.
- Implemented AWS services in different projects.

PROJECTS

CI/CD Pipeline with GitOps Deployment

- Designed and implemented an end-to-end pipeline using Jenkins Shared Libraries for reusable CI stages
- Integrated SonarQube for static code analysis and enforced Quality Gates before deployment
- Automated Docker image build and push to DockerHub
- Deployed applications to EKS with ArgoCD
- Configured email notifications for pipeline success/failure alerts

Disease Diagnosis Chatbot

- Developed a Python-based web application as part of the academic curriculum.
- Implemented login and signup functionality
- Utilised SQLite for data storage
- Used an NLP algorithm for better understanding and user experience

AI Interview Assistant

- Built an AI mock interview using Python.
- Integrated Resume & JD matching with a relevance score
- Generates domain-based interview question
- Real-time AI feedback on your answers
- FastAPI backend powered by Gemini API

Portfolio

- Developed a personal portfolio website using HTML, CSS, and JavaScript.
- Implemented forms to submit queries or to get in touch.
- All commits to the repository are automatically updated in S3 bucket using GitHub Actions.

SKILLS

Cloud Platforms	AWS (EC2, S3, RDS, IAM, VPC, Route53, Auto Scaling, Elastic Load Balancer, CloudWatch, CloudFront, Lambda, EKS, SNS, SQS, CloudFormation), Azure, GCP
Infrastructure as Code	Terraform (Modules, Remote State, Workspaces, Environment-based Provisioning)
CI/CD Tools	Jenkins, GitHub Actions, ArgoCD
Containerization & Orchestration	Docker, Kubernetes, Amazon EKS
Configuration Management	Ansible (Playbooks, Roles, Inventories, Dynamic Inventory)
Scripting & Automation	Python, Bash, YAML
Version Control	Git, GitHub, Bitbucket
Monitoring & Observability	Prometheus, Grafana, AWS CloudWatch, CloudWatch Logs, Alerting
Operating Systems	Linux Administration (Ubuntu, RHEL), Windows, MacOS
Administration	User Management, Permissions, Cron Jobs, Package Management, Log Analysis
Networking	VPC, Subnets, Route Tables, Security Groups, NACLs, NAT Gateway, Internet Gateway, Load Balancing, Auto Scaling, DNS, VPN

CERTIFICATIONS

- **IBM DevOps and Software Engineering** professional certificate from Coursera.
- **DevOps Engineer** from NCVET – Skill India.
- **Python for Data Science** from Coursera and Udemy
